Why become a Certified Public Accountant?

01

The most valuable credential for advancing a career in accounting industry.

02

Typically multi-talented professionals who perform a mix of highly-specialized job functions.

03

Facing more opportunities to travel the world and gain international business experience.

What is Professional Diploma in Accountancy?

*PDA will be awarded to students who graduate with credit requirement achieved.

Our PDA provides you the fastest route to bridge from your degree to becoming a CPA. Unlike accountancy degree graduates who can join the New QP exam directly, we understand that there are non-accountancy degree holders who also would like to join the accounting industry and pursue a professional qualification. Therefore, by completing our PDA, you will be eligible to register as a student of HKICPA and start your journey to become CPA whatever your degree background is.

Pioneer Institution

Since 2000, Kaplan Financial has been running Conversion Programme ("CP") for non-accountancy graduates for the Big 4 Firms candidates to enter into the Hong Kong accountancy profession.

In 2006, Kaplan Financial successfully received the accreditation from HKICPA to offer CP for the public. Successful students are eligible to proceed on to the HKICPA QP. Kaplan CP was first assessed and approved by HKCAAVQ(Hong Kong Council of Academic Accrediation and Vocational Qualifications) in March 2006 and was accredited by HKICPA since June 2016.

In 2021, we have reached another milestone by receiving the recognition from HKCAAVQ and obtained QF Level 5 for the course, that giving the public a representation of proven ability to deliver high quality learning experience. At the same time, we decide to rename the programme to "Professional Diploma in Accountancy" which we believe it can maximize the opportunities for our graduates along their career pathway.

Programme Objectives

To enable students who are bachelor degree holders of business and non-accounting disciplines to demonstrate and apply knowledge and intellectual skills in the core areas of professional accountancy and to ensure their technical competencies are qualified to enter the New Qualification Programme (QP) of the Hong Kong Institute of Certified Public Accountants (HKICPA); and

To enable students to demonstrate necessary enabling competencies (including interpersonal and communication skills and professional values, ethics and attitudes) which are qualified to enter the New QP of the HKICPA.

PILOs

(Programme Intended Learning Outcomes)

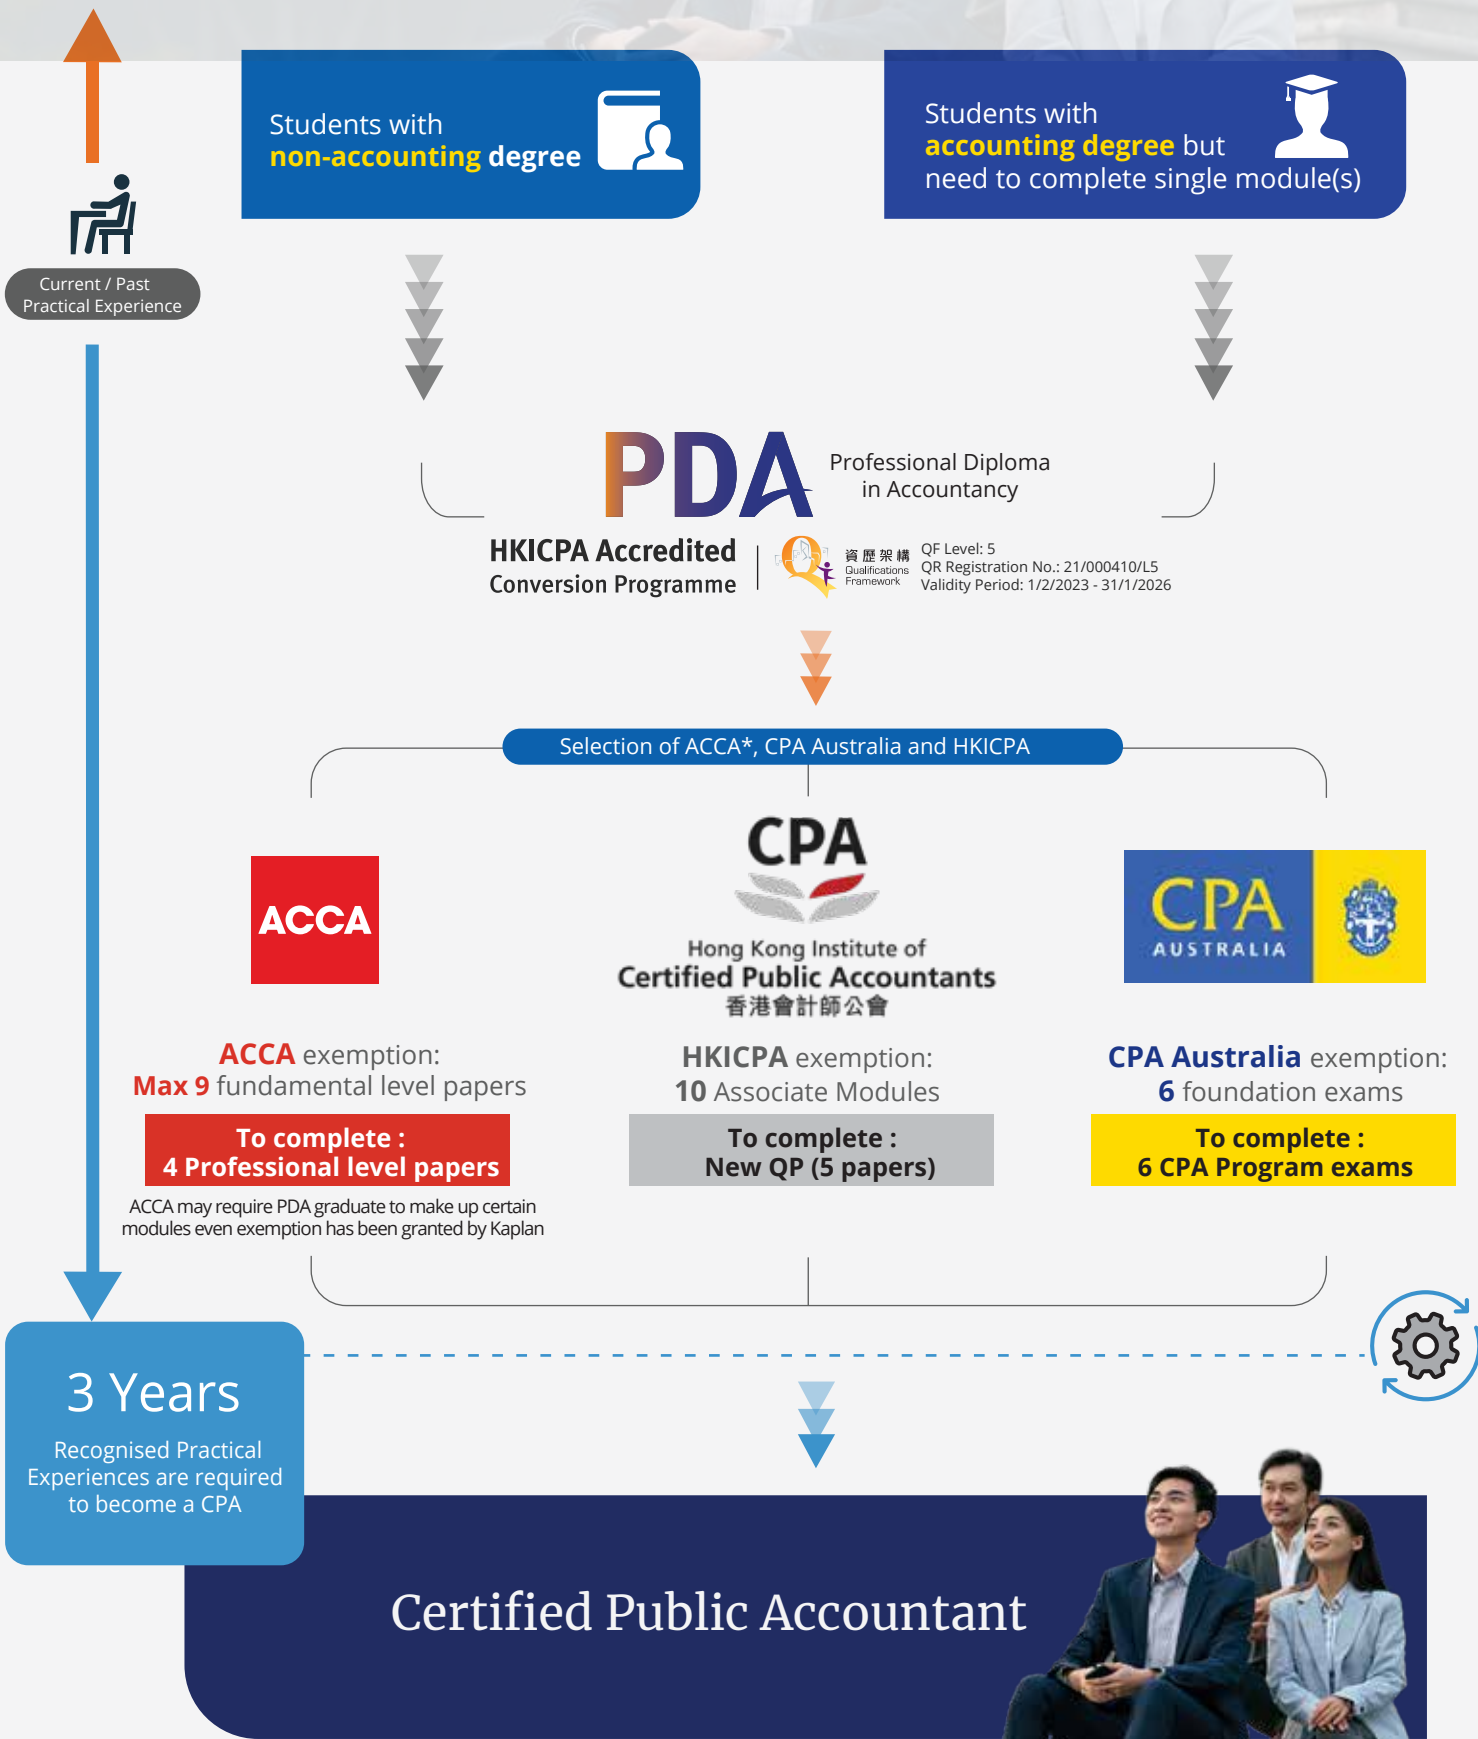

Students will be able to:

- Demonstrate solid knowledge and use intellectual skills in accounting and related business disciplines
- Analyse and deal with ethical and other practical issues in the accounting profession In Hong Kong and the Greater China region
- Apply accounting knowledge and skills in real-world situations in the context of ethical and other accounting and regulatory frameworks
- Formulate evidence-based responses to routine and abstract accounting and related business issues
- Apply effective communication skills for accounting purposes
- Determine and achieve personal and team goals by applying effective interpersonal skills

Entry requirements

- Applicants should hold a degree in one of the recognized universities in Hong Kong or overseas.
- If your Bachelor's degree or equivalent qualification is from an institution where the medium of instruction is not English, you are expected to fulfil the minimum English language requirement. For details, please refer to "Entry Requirements" in our website.
- Student registration & qualification vetting can be completed through Kaplan Financial. Applicants should consult with HKICPA / Kaplan Financial if their degrees are recognized in meeting the HKICPA Student Registration Requirements before applying for admission to this programme.

What's my next journey after PDA?
